A Great Mistake.

A recart discovery is that hardache, dizziness, duliness, confusion of the mind, etc., are che to derangement of the nerve centers which supply the brain with nerve force; that indigestion, dyspepsia, neuralgia, wind in stomach, etc., arise from the derangement of the nerve centers supplying these or-

ment of the nerve centers supplying these organs with nerve fluid or force. This is likewish true of many diseases of the heart and imags. The nerve system is like a telegraph system, as will be seen by the accompanying but. The little white lines are the nerves which convey the nerve to the nerves which convey the nerve to the nerves to every part of the body, just as the alcourice current is conveyed along the telegraph wires to every part of the body, just as the alcourice current is conveyed along the telegraph wires to every physicians fail: I regard this face; instead of treating the nerve caters for the case of the discovering the nerve caters for the case of the discovering the nerve at the part affected.

The silver wing of the Republi can State Convention unanimously adopted the ollowing platform: The convention endorses and adopts the platform of the Repubcas State Convention, held at Va city on the 30 of April last, as fol-

Resolved, That we condemn the Republican party of the Eastern states and the a ministration of President Harrison, insofar as they have failed to accomplish the complete remonetization of silver, and to enact laws providing for the free and unrestricted coinage or that metal.

Resolved. That the restoration of silver to the place it scupled previous to the passage or the Mint Act of 1873, is essential to the prosperity of the country and paramount to all other political considerations. The legislation which robbed silver of its money functions and denied to the owner of silver bullion the right to have the same coined into money upon the some terms and conditions which apply to the coinage of gold, reduced the money of ultimate redemption or payment, about onehalf, and enabled the owners of money and obligations payable in money to monopolize the coin of the commercial world.

Resolved, That the people of Nevada are in favor of the coinage of silver upon the same conditions which apply to the coinage of gold, and they are opposed to elevating any person to office who is not known to be unequivocally in favor of opening the Mints of the United States to the free and unlimited coinage of silver.

In view of the unsatisfactory attitude of President Harrison to the paramount issue of the remonetization of silver, this convention will make no neminations for Presidential electors and the State Central Committee to be appointed by this Convention shall have no authority to put in nomination electors.

The Convention cordially en dorses the vigorous efforts of our Senators and Representatives to secure the free and unlimited coinage of silver, and the educational work that they have done in presenting the true issue between the money powers and the bondholders and laborers and producers of

wealth. And we favor the continuation of agitation and contention for the free and unmitted comage of silver at the present ratio of 16 to 1, for their own benefit and for the menefit of the people at large miners, farmers, laborers and me

chanics. The citizens of Nevada, representatives of the various silver leagues, irrespective of past party affiliations, in convention assembled, do set forth the following declaration of principles:

First. We demand the full remon tization of silver and the free and unlimited coinage thereof, at the present ratio of 16 to 1.

Second. We are radically and unalterably opposed to the Nation al Republican and Democratic parties on the question of the iree coinage of silver and we denounce the action of their recent national conventions as inimical to the material interests of the people of the United States, and especially to those of Nevada and all the other All work guaranteed. On King mining states and territories, and we therefore repudiate the nominees of their convention.

Third. We plaige the nominees or this convention for Presidential electors to "unport no man for President or Vice-Presiden of the United States who is not unequivocally in favor of free colonge as defined by this con ... ntion. We reseave to the silver leagues of Nevada, in Convention assembled, \$1 the right of directing said Presdential electors for whom to cast their votes, should confingencies GEO. S NIXON, \$1 require.
